

The Alumni Risk Management Advisor Program

welcomes the MIT Community to a

**Discussion with Dr. Alan Siegel,
Chief of MIT's mental health services**

**Wed. April 16 from 6:30pm-8:30pm
Walker Memorial-Pritchett Lounge.**

Last January, the Alumni Risk Management Advisor group organized a very productive session with the MIT & Boston Police leadership, and so decided to follow that up with another topical discussion.

Currently there are ten FSILGs involved in Alumni Risk Management Advisor Program. If you or one of your alums are interested in making this commitment for your chapter, please look over the description at <http://www.mitailg.com/programs/riskmgmt/riskmgmt.html> on the AILG web pages and come to this event. If you wish to just attend without a commitment, that's fine, too. But in either event, still please RSVP to rferrara@mit.edu, so we know how much food to order.

See reverse side for more information:

Chapter Alumni Risk Management Advisor Program

MIT has been working with alumni to develop this program since 2004. The purpose of this program is to open dialogue and develop strategies to effectively address risk and provide support for the undergraduate risk managers in our living communities. The Alumni Risk Management Advisor Program seeks to establish an ongoing working relationship between alumni and the MIT administration to provide another level of support for the FSILG communities and their membership. This is a specific, time-limited role, but one that can really help in young people's unfolding lives. Several FSILG chapters on campus have now defined such a role and more plan to do so.

The program also sponsors periodic larger group meeting for the larger community on topics aligned with our interests. These are the meeting for the Spring 2008 Term.

* Wednesday, January 23 at 6:30PM - 32-G401 - featured guests: Capt. William Evans of the Boston Police & Chief John DiFava and Lt. Al Pierce of the MIT Police.

* Wednesday, April 16 from 6:30PM-8:30PM - Pritchett Hall in the Walker Memorial - featured guest: Dr. Alan Siegel, Chief, Mental Health Services

ROLE DESCRIPTION:

Each Alumni Risk Management Advisor is provided with several opportunities throughout the year to meet with student risk managers, Alumni Risk Management Advisors from other communities, and MIT administrators. They will learn what resources are available in the MIT community and also have opportunities to provide feedback on current educational initiatives like the Panhellenic Risk Management Program, the ENTICE program, or the social host/server training, which is now required for two-thirds of the house membership as part of the Interfraternity Council alcohol certification process.

The [Alumni Risk Management Advisors role description](#) was first developed by several of the early alums who took on this role. In 2008, the scope of the program was broadened somewhat include wellness and related student health issues. Several [recommended activities and discussion questions](#) with chapter officers were also collected. As noted above, we also try to have at least one large group session each term, with an invited guest. We typically meet with MIT administrators, IFC and Panhellenic leaders, and MIT Police to discuss issues such as the following: Current climate in the cities of Boston and Cambridge, Student health and wellness issues, IFC policies and IFC Judicial Committee bylaws, Panhellenic Association programs and key initiatives, Emergency Medical Services and other MIT Medical resources., Strategies to respond to substance abusing or at-risk individuals before their behavior impacts the community, Role of the Alumni Risk Management Advisor & questions for discussion with the student risk manager.

This Program is sponsored by the AILG. If you are interested in participating, please contact Bob Ferrara '67, Director of FSILG Alumni Relations, at [rferrara \(at\) mit.edu](mailto:rferrara@mit.edu) & 617-253-7495, or Marlena Martinez, Assistant Director for FSILGs, at [marlenam \(at\) mit.edu](mailto:marlenam@mit.edu) or 617-258-9762. Or talk to any of the current group of [Alumni Risk Management Advisors](#).
